

HOW TO CHOOSE A BOOK

Pick something that is **interesting** & **comprehensible** to you. You should enjoy it and it should be relatively easy for you to read. It does not have to be utterly fascinating, and you do not have to understand every single word. It just has to hold your interest for a while, and it has to be something that you can mostly understand. It should be something that captures your curiosity and that you can read without too much struggle.

If you find you don't like it or it doesn't make sense to you, choose something else to read next time.
